WHAT IS IT?

Whole-Body Regulator: This potent daily tonic primes your body and curbs the consequences of chronic stress. As a whole-body regulator, it establishes a foundation of homeostasis and promotes healthy aging.

Healthy Energy Regulator: This natural energy shot contains adaptogens to boost natural, balanced energy and focus.

Hydrating and Cellular Energy: This refreshing drink hydrates your body and replaces nutrients that are lost during stress and exercise.

WHEN SHOULD I USE IT?

- One or two servings per day, anytime.
- Can be used morning, afternoon or evening or diluted and enjoyed throughout the day.
- A perfect addition to your IsaLean Shake!

- Can be used as an early morning boost.
- Enjoy for an afternoon pick-me-up.
- Perfect for a pre-workout boost.

- Enjoy the refreshing taste of *Want More Energy?* any time of the day.
- Great beverage option during or after exercise.

WHAT ARE THE BENEFITS?

Ionix Supreme contains a blend of **“stress adaptogens”** specifically chosen for their benefits in **modulating the consequences of chronic stress**. It also contains antioxidants for combatting free radicals to support healthy aging.

e+ is a naturally-caffeinated shot that uniquely combines the extensive benefits of caffeine along with a novel blend of **“focus adaptogens”** clinically demonstrated to **improve your mental and physical performance**. These focus adaptogens are also potent antioxidants to protect your cells from free radical damage.

Want More Energy? tastes great and is a **healthy alternative to sports drinks** which can contain excess amounts of sugar and calories. It is made with natural ingredients and contains an extensive vitamin complex which **contributes to proper functioning of almost every process in the body**.

WHAT MAKES THIS PRODUCT UNIQUE

- **Wolfberry** (Lycium barbarum) increases resistance against psychological stress and may contribute to mental clarity, normal working memory, and focus.
- **Schizandra** (Schizandra chinensis) is an antioxidant that increases endurance and mental performance.
- **Ashwagandha** (Withania somnifera) is a short shrub that has been found to decrease feelings of stress and reduce levels of the stress hormone, cortisol.
- Does not contain artificial colors, flavors, or sweeteners
- e+ contains naturally-source caffeine from green tea and yerba mate, enough to give you a safe and effective energy boost without adverse side effects.
- **Eleuthero root**, an adaptogenic plant, supports energy balance, physical performance, helps combat stress.
- **Rhodiola** has been used in traditional Chinese medicine and has been shown to increase energy, reduce fatigue, and enhance cognitive function during stressful circumstances.
- **Hawthorn Berry** enhances the ability to combat physiological and psychological stress.
- Does not contain artificial colors, flavors, or sweeteners
- Packs in a powerhouse of **antioxidant vitamins** to aid in recovery
- Supplies the body with **B vitamins** which are essential for energetic activity and have been shown to reduce mental agitation
- The **low-sugar content** makes it a great alternative to sugary juices and sodas
- Does not contain caffeine and is a perfect alternative for those who have caffeine sensitivities
- Does not contain artificial colors or sweeteners
